TAROPAK 2026 Trade Fair – Once Again Together with Polagra

The next edition of the TAROPAK Trade Fair will take place on 23–25 September 2026 at the MTP Poznań Expo. As in the previous edition, the event will be held simultaneously with Polagra, continuing the successful collaboration that connects the world of packaging with the food industry. The synergy between these events enables exhibitors to present innovative solutions to an even wider audience and to foster valuable cross-sector relationships.

TAROPAK – WE PACKAGE EVERY INDUSTRY!

TAROPAK is the most comprehensive trade fair in Poland covering all sectors of the packaging industry. Exhibitors showcase modern packaging and labeling machines, raw materials, technologies, and ready-made packaging solutions used across a wide range of industries — from food, pharmaceuticals, and cosmetics to furniture, automotive, and horticulture.

In response to market needs, new thematic areas are being developed, including packaging for e-commerce and sustainable solutions of the future. Participants will have the opportunity to see automated packaging lines, intelligent recycling systems, and technologies that reduce carbon footprints in action.

Who Is TAROPAK For?

The event is aimed at representatives of industries where packaging plays a key role — including manufacturers of food, cosmetics, pharmaceuticals, furniture, and pet food, as well as e-commerce sector professionals.

Among visitors, the majority are packaging professionals — directors and packaging specialists, technologists, production managers, maintenance engineers, quality, purchasing and sustainability managers, as well as company owners and senior executives.

TAROPAK 2026 Exhibitors

Exhibitors will include manufacturers, suppliers, and distributors of packaging machines, components, technologies, packaging and print designers, as well as companies offering ready-made packaging and automation solutions for packaging processes.

TAROPAK 2025 in Numbers

During the joint edition of POLAGRA and TAROPAK 2025, the event attracted 9,190 visitors. Exhibitors presented innovations that drew significant interest from professionals across various industries.

TAROPAK – Where Technology, Innovation, and Business Meet

TAROPAK is an event that connects the worlds of technology, innovation, and business. It's the place to be — to showcase your solutions, discover new trends, build valuable contacts, and forge long-term business relationships.
